

Medizintechnik Sattler GmbH

Innovations for the surgery

Advantages:

- » Fast and safe extraction of all types of conventional intramedullary nail only with one Set
- » No pre-operative identification of the implanted type of intramedullary nail
- » Easy positioning and tightening
- » Significant reduction of intraoperative extraction time
- » Functional and convenient storage in a specially designed and fully autoclavable container system

UNIVERSAL INTRAMEDULLARY NAIL EXTRACTOR SET
